

# Oscar O'Neill - Front End Developer

718-593-5970 | [oscar.oneill@aol.com](mailto:oscar.oneill@aol.com) | [linkedin.com/in/oscarone](https://www.linkedin.com/in/oscarone) | [oscaroneill.netlify.app](https://oscaroneill.netlify.app)

---

## SKILLS

HTML, CSS, SASS, JavaScript, React.js, Node.js, Express.js, Git, Gulp.js, PostgreSQL, Firebase

## PROJECTS

### Southside Football

**November 2020 - December 2020**

- Created a RESTful API to serve data to a JavaScript front end dependent on user navigation and input.
- Used PostgreSQL to store all player data.
- Deployed to Heroku for hosting.

### Firechat

**October 2020**

- Created a single room, real time, chat application with React.js.
- Utilized Firebase Authentication to authenticate users into the platform.
- Used Firebase Firestore database to store and stream messages to the front end.

### Yesterday

**September 2020**

- Developed a music website where people can play music from an album titled "Yesterday".
- Created with React.js and utilized Framer Motion to add animations to elements and provide subtle interactivity.

### Splashgram

**July 2020 - Continuous Development**

- Developed an photo viewing web application using photos from Unsplash.
- Created a RESTful API that makes calls to Unsplash via unsplash.js to fetch photos that are then displayed to the front end.

### Telepath

**April 2020 - Continuous Development**

- Created a RESTful API that makes calls to Reddit via snoowrap.js to fetch data.
- Developed a script that filters all gifs and videos and serves them to a JavaScript front end based on user search.
- Optimized CSS & JavaScript files by minifying them in order to reduce webpage loading time using Gulp.

## EDUCATION

University at Buffalo - Buffalo, NY - Psychology
