SKILLS

HTML, CSS, SASS, JavaScript, React.js, Node.js, Express.js, Git, Gulp.js, PostgreSQL, Firebase

PROJECTS

Southside Football

November 2020 - December 2020

- Created a RESTful API that serves data reliant on user navigation and input
- Allows user to create and update a player's health and gameday status
- Designed a schema in PostgreSQL to store player data and deployed application to Heroku

Firechat

October 2020

- Developed a chatroom application in React.js that supports real-time chatting
- Implemented an authentication mechanism by using Firebase Authentication
- Used Firebase Firestore database to store and stream messages to the front end

Yesterday

September 2020

- Developed a music web application where people can play music from an album titled "Yesterday"
- Created with React.js and utilized Framer Motion to add animations to elements and provide subtle interactivity

Splashgram

July 2020 - Continuous Development

- Developed a photo viewing web application that allows users to view photos from Unsplash
- Created a RESTful API that makes calls to Unsplash via `unsplash.js` to fetch photos that are then displayed to the front end

Telepath

April 2020 - Continuous Development

- Created a RESTful API that makes calls to Reddit via `snoowrap.js` to fetch data
- Developed a script that filters gifs and videos and serves them to the front end based on user search
- Optimized CSS & JavaScript files by minifying them in order to reduce webpage loading time using Gulp

EDUCATION

University at Buffalo - Buffalo, NY - Psychology
