About Me

I initially right-clicked to save an image, but things would not go as planned. Out of curiosity, I clicked on 'Inspect Element' and that morphed into an eye opening discovery of web development and design. I use web development to express my creative side and hope to bring my knowledge and talent to your organization. Below you will find projects I have worked on that display my skills.

Skills

HTML, CSS, JavaScript, React.js, Node.js, Express.js, MongoDB, Git

Projects

Yesterday (https://yesterday.netlify.app)
Music website for audio playback of the album "yesterday".
Stack: React.js, Framer Motion

Telepath (https://telepath.netlify.app)
Telepath utilizes the reddit API to return videos and gifs for user consumption.
Stack: HTML, CSS, JavaScript

Three Sports Men Podcast* (https://threesportsmen.netlify.app)
A single-page web application for the Three Sportsmen Podcast*. Provides listeners the opportunity to stream the latest episode of the podcast and displays scores from pro sports.
Stack: React.js, EmailJS

Splashgram (https://splashgram.herokuapp.com)
Splashgram is an Instagram-like Unsplash viewer using the Unsplash API to return images and user profiles.
Stack: HTML, CSS, JavaScript, Node.js, Express.js, Unsplash.js

ExerTracker (http://exercise-tracker-react.herokuapp.com)
Built REST API that stores JSON exercise logs in MongoDB
Stack: React.js, MongoDB, Express.js, Node.js, Axios

Education

University at Buffalo, Buffalo, NY, Psychology
